## Comparison of INCO FTC & Aristo FTC

# INCO – FTC (Grand Neo 400)

	<b>INCO FTC</b>	<b>ARISTO FTC</b>
Module Dimension (Min & Max in mm)	Height - 2400 to 3100 Width - 1500 to 2400 Depth - 600 (NS is also provided from 580 to 650)	Height - 2700 to 2850 Width - 1500 to 2370 Depth - 600 (NS is also provided from 580 to 600)
Space Utilization	Since the door height can be provided till 3100mm space can be utilized better	Door height can be provided till 2850mm, the remaining space to be covered with wooden boxing or gypsum
Sliding shutter colour combination	All the INCO offerings laminate materials are applicable for the door	Only aristo offered materials are applicable for the door
Sliding profile finish	Dark Champagne	Gold, white, pearl grey, champagne, jupiter, black & mercury
Installation	Material procurement & installation are done by inhouse team	Dependency from the aristo team for installation
Sliding Track	The track are mounted in between the carcass. The bottom track is mounted to the bottom panel hence there will be less chances of dust accumulation in the track	The bottom track is mounted to the floor, Hence there will be chances of dust accumulations in the track which effects the sliders
Cost	INCO FTC hardware is comparatively lesser than aristo	Aristo FTC hardware is expensive

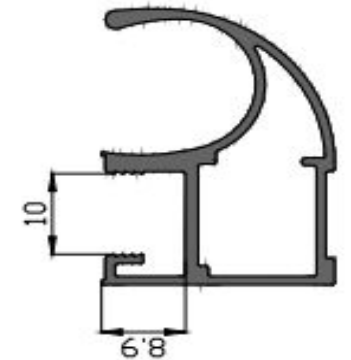

## INCO FTC - Top & Bottom Profile

### Specifications:

Handle Type: C Handle Profile  
All the profiles are in Dark champagne

### C - Handle profile

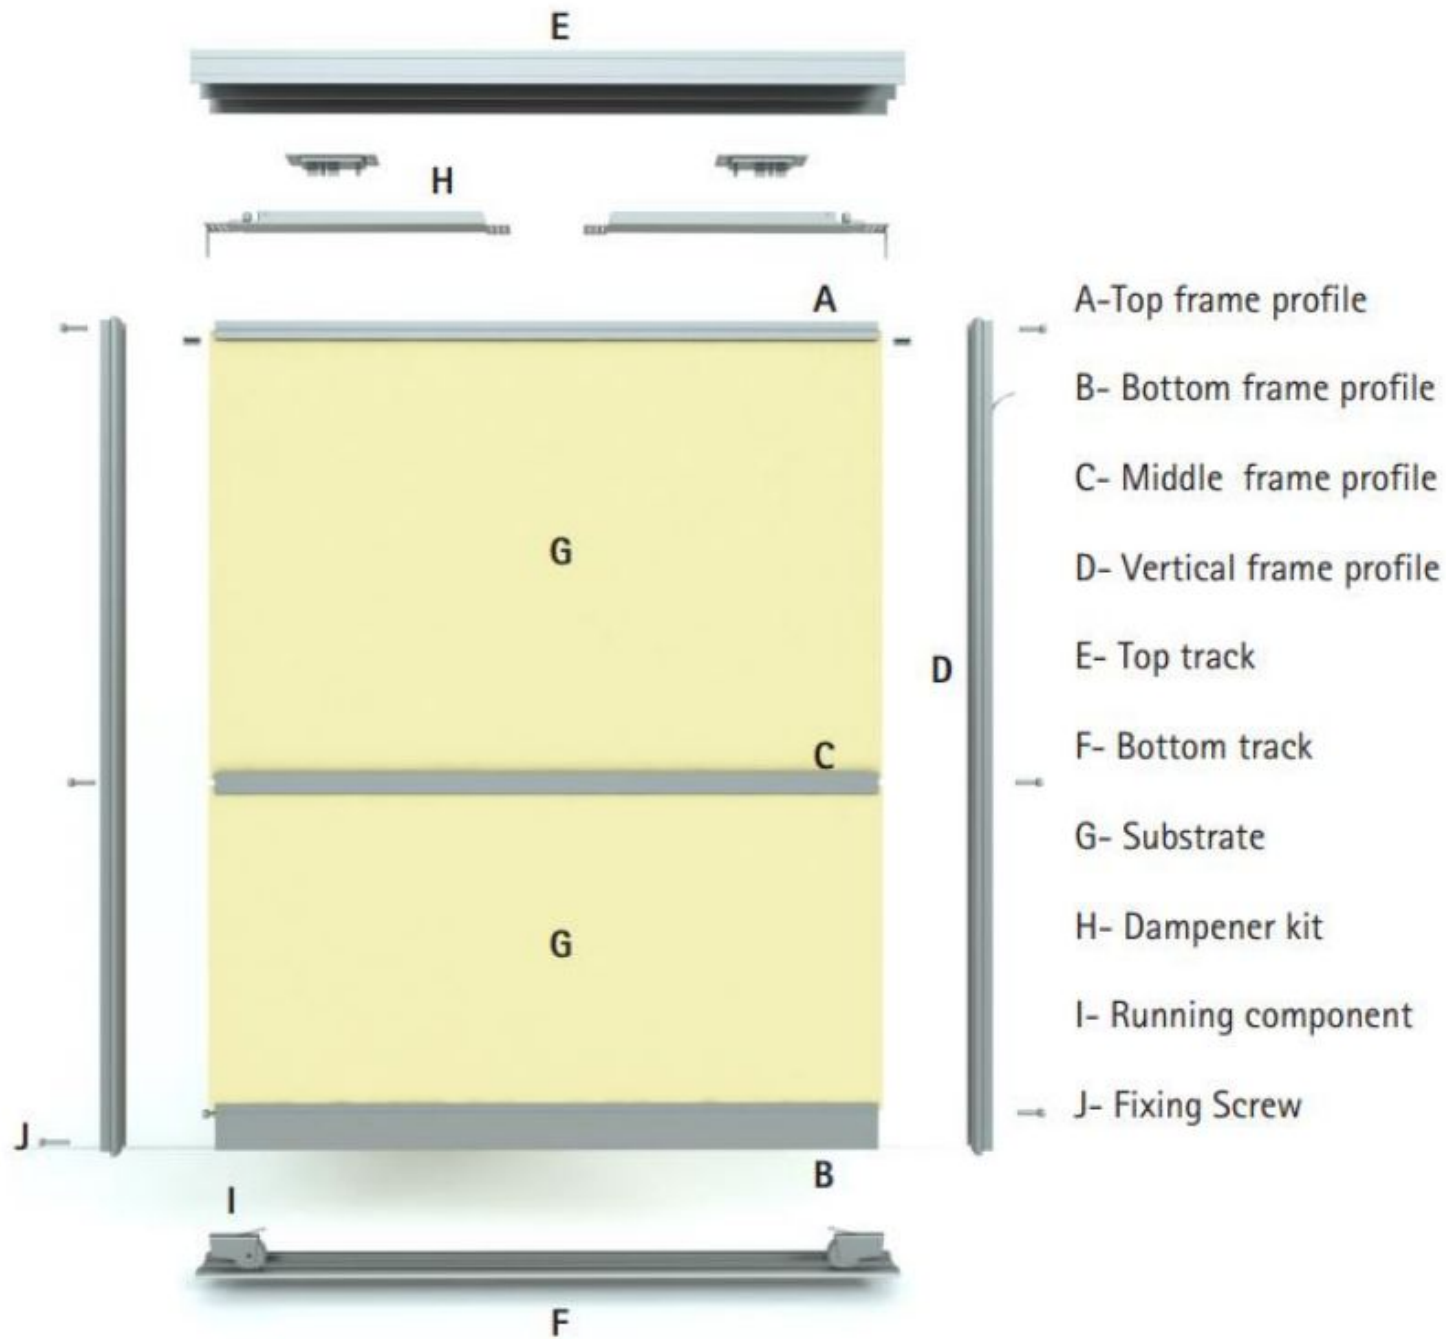

### Inner Dimension Calculation:

If 600 is Carcass depth internal space will be 460mm,  
\*600 (carcass depth)-110 (Clear space for sliding mechanism)-30 (back panel) = 460 (Internal depth)

Shutter Height : Inside cabinet height - 42
